INTERIM REMEDIAL ACTION

This letter is for the attention of C. C. Jierree.

Enclosed are 6 copies of: "Interim Remedial Action Plan for 881 Hillside Area". Two of the copies are for the Area Office, two are for EPA and two are for the Department of Health.

The plan addresses collection of groundwater and treatment for removal of Volatile Organic Compounds (VOC's). The Plan refers to treatment in Building 830. A decision will be made in the next couple of weeks whether to modify that building for the treatment process units or whether to use another available building. The choice of buildings is an economic decision that doesn't alter the remedial action concept described in the Plan.

If you have any questions on the document, please contact T. C. Greengard at extension 7121.
